

WESTERLY

The Westerly Scouts who had an opportunity to visit Camp Yawgoog this summer learn that from all over the state 779 scouts and leaders spent at least one week in camp. According to Dr. Fred W. Marvel, chairman of the camp committee, this is the largest number of scouts that has thus far attended camp in Rhode Island and shows an increase of 116 over the previous years. The boys who went from here were among those who helped to swell Rhode Island's number. Camp Yawgoog, was the largest scout camp in New England and ranked among the leading camps of the country. Forty-six scout masters, commissioners and troop committee men spent at least a week in camp. The average weekly attendance was 130.4 or 134.4 scout weeks units for 16 weeks. The larger week of camp there were 193 officers and scouts in camp in addition to the 10 officers and cooks on the regular camp staff. A total of 47 different troops sent representatives. Dr. E. J. Knap, of Hopkinton, made daily visitations to the camp and reported everything satisfactory, conditions being most satisfactory.

The scoutmaster department passed 3113-1-3 different tests. The physical department reported an average gain in weight of 1.13 pounds per scout. The swimming department reported 48 scouts taught to swim, 113 passed the 50-yard swimming test, 126 passed the 100-yard swim test, 105 passed the quarter-mile swim test, 41 passed swimming merit badge, 218 passed the life saving merit badge. Four men passed the senior Red Cross life-saving corps tests, 12 boys passed the Junior Corps tests. During the week of Aug. 5, Koster met was served for Jewish here in camp, so scouts of this faith might meet with the other scouts.

With the removal of the Rhode Island drug store to the West Side and the opening of another store in the Walton building and a new delicatessen store, Pawcatuck will take quite a little business on the other side of the river and out of Westerly proper, due to lack of business locations in the center for stores.

Somewhere from the happy "Round House" hugging grounds the New Haven road repaired a locomotive of the prehistoric type, of the models that were in use when the whistle of an engine was its main asset. Sometime during the short watches of the night Sunday, said relic arrived at Jewett City.

There was occasion to send out the flagman, and later to recall him. The man on the job then let the whistle loose. It was a howling, soul-stirring cry between the Baltic's big fog siren and the Mauretania's 20-inch main stack whistle. Boredom sprang hurriedly from their beds, windows were thrown up and (night-capped) heads were thrust out.

The telephone exchange was besieged with excited calls, asking what number the fire alarm had blown. Late pedestrians passing on the street explained the matter to wild-eyed residents. Soon the old machine wheeled up the line to

It was her Doctor's idea

MARY Josephine Murray gained only three-quarters of a pound the first three months she lived in this world. Then her doctor recommended Borden's Eagle Brand Milk. "She commenced to gain at once," Mrs. Murray reports, and six months later she had become a normal, healthy child. On her first birthday she weighed 23 lbs., 5 oz.

"Our doctor always speaks of her as a fine, healthy specimen of babyhood," writes Mary's mother. "She is such a good, happy baby and sleeps all night long."

Naturally, her doctor's sensible advice as well as her mother's care have contributed largely to Mary's wonderful health, even though her mother feels that she owes it all to Eagle Brand. But many thousands of other mothers have found Eagle Brand the best food for their babies. And a great many doctors recommend it—just as Mary's doctor did—in difficult feeding cases

where the child was underweight or not gaining as it should.

A child's health is so largely dependent on its food, that no mother can afford to experiment. Nurse your baby, if you can, of course, but if for any reason mother's milk fails, don't risk foods of which you are not sure.

Borden's Eagle Brand Milk has been the standard for a great many years. For it is nothing but milk—pure country milk combined with sugar. It is the natural food when mother's milk is not available.

Your grocer has Eagle Brand. You'll find it always pure and uniform.
